Leg Care

Antiphlogistine
hot dressing

Use
ANTIPHLOGISTINE is a traditional formulation that is safe to use and very effective. When a hot dressing is delicately or recommended, ANTIPHLOGISTINE is the product of choice.

Properties
ANTIPHLOGISTINE has astringent and antiphlogistical properties.

Ingredients
Kaolin, glycerin, peppermint oil, eucalyptus oil, Wintergreen Oil

Instructions
1 - remove lid
2 - heat the product in its container by placing it into very hot water so the clay based mixture becomes hot to the touch but without burning.
3 - stir well and apply a thick coating of the hot product to the affected area.
4 - cover with newspaper and a band of rest.
5 - leave in place 12 to 24 hours
6 - rinse with cold water
7 - Reapply as necessary.
8 - Always loosen the lid before heating and replace the lid after use.

Category
